

QUALITY MANAGEMENT POLICY

It is the policy of NBM Distribution Limited to be a market driven, competitive supplier for the Data Communication Networking Industry. Furthermore, the company shall strive to demonstrate a superior service to its customers and contribute to the success and growth of the company.

The company wishes to achieve this through a continual programme of improvement and to regularly assess the procedures and products and fully utilise the potential of the resources and personnel of the company.

In line with the above objectives, the directors of the company are committed to the implementation of and continued compliance with a Quality Management Policy meeting the requirements of BS EN ISO 9001:2008.

It is the responsibility of all company personnel to familiarise themselves with the procedures and controls of this policy and ensure compliance with them.

Should you have any comments on the above statement or you feel that we have not offered you our best service please do not hesitate to contact us 01923 270301.
